Dear Mr. Corey:

On April 5, 2019, the California Air Resources Board submitted revisions to the California State Implementation Plan (SIP). We have reviewed the materials submitted with the following document and found that they fulfill the completeness criteria in 40 CFR Part 51, Appendix V.

District	Rule #	Title
Calaveras County Air Pollution Control District (APCD)	428	NSR Requirements for New and Modified Major Sources in Nonattainment Areas

This submittal addresses the finding of failure to submit made by the U.S. Environmental Protection Agency (EPA) on February 3, 2017, (82 FR 9158) for the 2008 Ozone National Ambient Air Quality Standard regarding New Source Review (NSR) program requirements for the Calaveras County APCD. The finding of completeness conveyed in this letter represents EPA's determination that the deficiency that formed the basis for the finding of failure to submit with respect to the NSR program has been corrected, and as a result, the related application of all sanctions clocks, including the offset sanctions which began on September 6, 2018, and the highway sanctions which began on March 6, 2019, are permanently stopped as of the date of this letter. See 40 CFR 52.31(d)(5).

In the coming months, we will review the complete revisions for action pursuant to Clean Air Act section 110(k).

If you have any questions regarding our completeness review, please call me at (415) 972-3183 or have your staff call Arnold Lazarus at (415) 972-3024.

Sincerely,

Elizabeth J. Adams
